Unreal Engine Developer | C++ & Blueprints | Multiplayer & VR | 4+ years in game development

EXPERIENCE

Unreal Engine Developer | MARTA | Dubai, UAE | Remote | Aug 2025 – Present

MARTA is an architectural visualization studio working with real-time 3D technologies and interactive digital content.

- Implemented JSON parsers to load apartment data (areas, floors, layouts, parameters) into Unreal Engine
- Developed custom camera systems for apartment and interior viewing (fixed views, transitions, walkthroughs)
- Built logic for switching apartments and updating visuals based on selected data
- Integrated lighting, materials, and assets for real-time architectural visualization

Game Developer | NEO-ONE | Astana, Kazakhstan | Remote | Sep 2024 - Jan 2025

NEO-ONE is a company specializing in educational VR applications for schools.

- Created 5 interactive VR chemistry experiments using C++ and Blueprint
- Developed physics-based grabbing, laser interaction, and collision triggers for hand controllers
- Built reagent mixing logic with reaction feedback and UI flow
- Packaged and tested standalone VR builds for Meta Quest 2

Game Developer | Magic Hazard | Tbilisi, Georgia | Remote | Aug 2021 - Aug 2025

Magic Hazard is an indie studio behind the hardcore action game *Memory Lost*.

- Developed AI for melee, ranged, scout, and boss enemies using Behavior Trees and State Machines
- Implemented enemy spawner system with wave logic and performance profiling
- Built custom GameMode and GameState for co-op multiplayer sessions
- Debugged replicated gameplay and ensured smooth network synchronization

Software QA Engineer | Dell EMC | Saint Petersburg | Feb 2019 - Aug 2021

Dell EMC is a global tech company known for enterprise IT solutions, including data storage and cloud infrastructure.

- Maintained over 1500 automated Python test cases
- Created 300+ new regression and stability tests
- Integrated Jenkins pipelines with QTest for automated reporting
- Wrote onboarding documentation and trained junior QA engineers

EDUCATION

Saint Petersburg State University | 2017 - 2021

Bachelor's in Software and Administration of Information Systems

SKILLS

- **Tech Stack:** Unreal Engine 5, C++, Blueprint, Python, Git, SVN, UMG, Rive Plugin, Meta Quest Developer Hub, ADB
- **Expertise:** Multiplayer (Replication, RPCs, Authority Logic), VR (Motion Controllers, Laser Tools, Physics Grabbing), UI, Performance Optimization
- **Publishing:** Released standalone VR app on Meta Store
